Dear Miss Harrington,

For several years I have endeavoured to gather biographical material for a book on the work of the late Dr. George M. Dawson. So far I have not been very successful.

Several years the Vancouver Daily Province published an article of mine on Dr. Dawson's work in the Yukon, but so much more than this remains to be written. The late Dean Brock of this University and my Father both knew Dr. Dawson, but unfortunately left no written impressions.

The reference librarian at McGill was unable to give me any new material, but suggested that you might be able to help me. Any assistance would be deeply appreciated.

Yours sincerely,

Phyllis Davis (Mrs)
