

Engraving Lithographic Copperplate & Letterpress Printing Estab<sup>t</sup>

3 St James Square, Edinburgh 29<sup>th</sup> March 1855

Wm Danson Esq

Dear Sir

With this you

have proof of the Geological Map of  
Britain & Edwards Island with which I  
hope you will be satisfied so far.

You will perceive that the marks  
denoting the Coal Limestone, and  
Iron are printed in black but  
when the Copies are thrown off these  
will be in Blue as in your pattern  
and other little matters will have  
my best attention where wanted  
in the meantime I shall not  
want for a return of the proof but  
shall at once get on with the lithography

The Maps were made by a Carver & Co  
of Edinburgh

W. H. Sears
