Mc Gill College  
Montreal

July 3, 1860

My dear Sir

I received some time  
since intimation from Messrs Oliver  
& Boyd that they had forwarded  
to you the following

50 Canadian Geology  
100 Supplement to do

also a parcel containing a smaller  
quantity for Mr Mc Pherson. If I  
remember I wrote to you on the  
subject of these books making  
an offer of the whole at a  
reduced rate. I shall be  
glad to learn from you of  
the amount of the books and  
what you determine as to their  
purchase. I am very anxious  
to close the whole affair,  
and as the 50 copies sent

Apr 9 25 sent to Mr Plessner  
are the whole remaining  
stock, except about 30 copies  
which I leave with Messrs  
O & B for British sale and  
100 which I have already sold  
& Messrs Dawson here for sale  
in Canada, I think it would  
be quite safe for you to purchase  
the whole.

I shall be glad to  
hear from you on the subject  
at your earliest convenience,  
and if you think the prices  
I have mentioned too high,  
please say if any lower offer  
would induce you to take  
the whole.

I may mention that  
Messrs O & B have fixed  
the selling price of the Supplement  
at 2/6, considering this a  
fair rate in comparison with  
the cost of the book; but

The net expense of printing we  
 is only 80s Sterling; so that in  
 accordance with my previous offer  
 I shall give them to you at  
 10d say 10s per dozen (ex),  
 so that the value of the  
 whole will be

50 Ac feet @ 5s = £12.10  
 100 Supplements @ 10s/doz =  $\frac{40}{-}$   
 £16.10

Offered whole for £15

& to Mr Plum for equal for £17.10

Offered Mr Plum

the 50 at 5s

suppl at 10s

or to the £17.10 for the

whole or value of £41.10

after their profit of £3 in July/12
