Prof Davenport

27 Monticello Ave

Eden. 25 August 1870

My Dear Sir

I had a letter from Mrs
Davenport in which she asks for
information as to Ladder classes.
I will endeavour to supply what
she wants. Please to call upon me
the week. The return from Bonetula
on the 25th - leave for Liverpool on the
27th so that she will not be able
to call here. I am glad that
she has enjoyed her residence
in Eden & that you in her kind
and generous.

In faith of your most pleased

is in Museum N. M. P. 187
I found that the tally for the
Dadsway had fallen off
Will you kindly give me the
name of the species that you
write? Now a Devonian
Dadsway you will understand.

I am anxious if possible to
acquire my copy of the
Canadian Naturalist
I am in my possession
of the First Series Vol I to VIII
and of the new Series Vol III.

It is a useful & valuable journal
and should like to complete it

I am drawing up a statement
for the Commission appointed
to consider the mode of employing
Journals in Britain. I shall
be glad of any hint from
you. I see that you have reported
on various scientific institutions
in America.

I shall be happy to add
to the first plant in our
Museum at the Garden.

I can send in exchange some
specimens of plants from various
parts of the World for you. I have
~~with~~ Mr. Walpole you in the
University.

Your most kind
J. M. Walpole

has been a great help in the question of
Chair of Geology in Edinburgh.
