My dear Sir

Three of your
sermonic papers are in
the printer's hands. I fear
there will not now be
time to wait for your
corrected proof of
January, but I will
try to send February
and succeeding papers in

time. Send others as
soon as you can, as
we go with accelerated
velocity towards the
fall of the year. Our
volumes for 1870 have
been for some time in
print in completed
shape. So we need
the December paper
about August, if
you can to see proof.
I did not return for

America till it was
too late to arrange
about your fees; the
first proof. Mr. Pattison
will help me to see
all night. I had
more to see in the
States than I could
manage, and I was
in no place that I
was not sorry to leave.
People here know little

about ^{Dr Macaulay} transatlantic
life at least in the
States. They are
before us in all
~~the~~ things pertaining
to the social wellbeing
of the people. How
Dr. Chalmers would have
been delighted with their
big towns, Philadelphia
especially! Dr. Chalmers
