

Aburach Feb 8th 1891

My dear Sir,

I am very much obliged
by your kindness in presenting me
with your valuable work on
Acadian Geology. Your various
papers in the Geological Journal
I read as they appeared with atten-
tion; and I am now glad to
propose a systematic account of
your researches. To me it is
most interesting, as several
of the beds which you describe,
are similar to those in
Northern Ireland.

Yours truly
Suppony

Supposing that a local
History containing not a little
of Border History, might interest
you in the new works of Westwood
to send for your acceptance
The History of Shrewsbury

By post I forwarded the
Proceedings of the Berwickshire
Naturalists' Club for 1870. The
Contents are not so varied as
usual; some papers having been
deferred to make room for
an illustrated account of Edin's
Hall; but it was afterwards
found that this could not be
ready till this year.

I shall be glad to
arrange to send to you

University a copy of the
Berwickshire proceedings as
they appear, if you think
they would be acceptable. They
are sent to several public
bodies in America. The
whole of Volume V and two
parts of VI could now
be sent

With thanks for
your kindness

Yours very truly
Principal Dawson 250
Montreal

P.S. I ought to say that
illness has caused delay in
replying to your letter
