Dear Dr. Lawson.

Yours of the 6<sup>th</sup> of August is to hand. On my return to Washington it will give me much pleasure to send to the Governor General such of the Smithsonian Publications on fish as we may have to spare.

I shall be very glad to have an arrangement made for the publication of a joint-work on the common food fishes of the two Countries at joint-expense.

I shall be pleased to receive the copies of the pamphlet to which you refer, & to distribute them judiciously.

Dr. J. W. Lawson.

Yours truly,
