Iron and Steel Wire.

ADDRESS,
P. O. Box 1465.

New York, Oct 1 1879

Dr. J. W. Dawson

M. Gill College

Montreal

My dear Sir

Since writing you, I have received your favor of the 29th, & also the pamphlets accompanying it. I have forwarded to Mr. Holley's office, 239 Broadway New York, the enclosure addressed to him; but as he is absent in the West, you may not receive his acknowledgment.

With regard to the Pictou Property, I should be glad to

serve you, if possible. My own
house is not using imported
ores; but there is a considerable
demand for Spanish and
African ores here, to be used
in the manufacture of Bessemer
pig; and according to the anal-
yses, some of the Pictou ores,
being free from phosphorus and
rich in iron, would suit that
demand. I will call the atten-
tion of some of our ironmasters
to the subject. If the present
activity in the business con-
tinues, there will be a demand
for ores, without doubt. But, as
you are aware, it is uphill
work to change the established
course of trade, & to get people
to take hold of undeveloped
enterprises besides.

Yours truly,
R. W. Raymond
