My dear Dr. Dawson

I shall be in Montreal

On Wednesday morning I will call
& stay the forenoon at your
house. I have not been able to
find the section either at the
Parliament Building or at the Club.
If it had been left at Rideau I
think it would have been sent
you. Should it not turn up we
can easily construct another
as I

Think Mr Barlow has the rough sketch.
The plates of the Dio. plants are ready
for the press. - and the printing of the
descriptions could be gone on with
at once. - There are however one
or two matters in connection with it
I would like to consult you about.

In haste
Yours sincerely

Wm A. Schlegel

Have just rec'd a telegram which may
prevent my being in Montreal on
Wednesday, but shall endeavour to
come down this week.
