

Pictou 30 April 1859

My Dear Sir William

Allow me to introduce to you the bearer, Doctor J. W. Stirling, who goes to Montreal to prosecute the practice of his profession as an Occulist.

Dr. Stirling graduated at the Edinburgh University three years ago after a very successful career as a student. He afterwards spent some time in Britain and on the Continent preparing himself for the special work of an Occulist in which sphere he will, I feel quite sure, acquit himself with marked ability.

I feel a deep interest in Dr. Stirling's success in Montreal as towards him - his late father, W. S. Stirling of Halifax - I have always entertained the warmest friendship and any kindness you may be able to show to Dr. Stirling will be esteemed as a personal

favor by

Sir W. Dawson  
Macgill College  
Montreal

Your Very truly

Howard Primmer
