

~~George~~
Ottawa
March 17/82

Dear Father.

I have now unpacked
roughly all my specimens of last
summer. There are I regret to say
very few plants. I may be
able to give you a day or two in
April to look over all the
western plants.

I am sorry to hear what you
say about the N.S. Govt. &
William's work, but I suppose
nothing can be done about it
here. If he stays long enough
in Halifax I may see him
as I have taken my passage in
the Sarnatian which leaves

Portland May 4th. I have
 to give a lecture tonight to
 the Little Lib. & Sci. Society here, &
 am utilizing an very old
 one in the Ladies' Course.

Your affectionate Son
 George
