you up in the garret of the
 world educational, you must
 know that 1st the Ladies
 Ed. has not been a successful
 writer in a financial point
 of view - that Mrs Mercer is
 blamed for it - by many as she
 certainly in the face of the fact
 that Adler was not ungenerously
 inclined to accept Rodlock's plot
 pushed her charming relative
 Dr Douglass into the lecture ship
 & he has been a subject of
 mirth ever since, the case he
 gave was about fit for a
 1st grade school boy, he continued
 to say as little as I ever heard as
 my one I ever heard - also in
 his little books & surgical
 handkerchiefs - a (3 cornered piece
 of cotton) held to his at an 4-
 Charliant figure, far (I fancy)

 make sure - at the meeting
 lately held Mrs Mercer openly
 accused Mrs Simpson as being the

here feel her a disgrace to the school, I
think will heartily rejoice that she
hates her office than this winter, as
being surely she has declined to
accept that the air - must go on, it
necessary for her school. etc. - she has

rather have been a support
than a hindrance to further
higher education, & in any
case Mrs T. had a perfect right
to ^{back} anything she chose - as much
as any other teacher - Miss

with Mrs M. - on the spot

However the main thing is
this, I know you have been
making notes about woman's
education & observing all done
in that regard abroad - &
here there is a real hot party

I thought any new start

Now you will no doubt
say poor Mrs M. - how bad
to attack her, but - I can assure
you that her not paying her
just debts either to tradespeople

as her government is shewly known & talked of
as "in fact" other teachers being better paid
