Dec. 3. 93

My dear mother,

William has
been here yesterday & today
& tonight leaves for Toronto
to fetch up from Carleton
the records of Zical Mrs.
He took up his quarters
at the Windsor Hotel &
has since been looking out
for a boarding house. He
seems to prefer living in
that way if he can get a

Comfortable place, & has
found some place to which
he proposes to return when
he gets back from Toronto.

He has had an office room
allotted to him in the building,
which considering their
plethoric condition is
something, & appears to be
generally hopeful & well
pleased with his prospects
here.

I hope that Foster has been
done the course of his effort
of the University lecture.

His address, in the
 history of the College appears
 to have been a very interesting
 one, & several people
 here have spoken of it to
 me.

It has been snowing all
 day today & we now have
 a good covering of snow on
 the ground, which is likely
 I suppose to stay with us
 for the winter

Yours
 George
