

Williamson

Acc. 976

Yellowfield

Manchester

My dear Lady Dawson

Thank you for letting
us see the nice letter of Mrs Grey
It is all too sad - true to I
think that Dr Grey is half conscious
Some times I tremble at our own
humanity from suffering when
so many of our dearest friends
are stricken - poor Mrs Grey - if
one only could do anything to
lighten the burden for her.

Herbert thanks you for your
very kind letter to him & for
the clever sketches your three
grand children did for you - it
must have cost you something
/ let them come away - Herbert
has put them all away among

his very precious treasures -

You showed the real kindness
in writing to him that only a
good kind Mother understands.

We are all still well I am
happy to say. Dr Williamson
is wonderfully bright & energetic
much more so than he has in three
years past. - We are hoping to spend
our summer vacation in Turkeyland
this always does him good -

Will you please thank her for her
interesting letter to me. I do so
much wish you had a little
hearer. I want badly to borrow
her for a tract but the Alliance
is wide - We all send love to you
all dear Lady Dawson. This
is only a note of acknowledge.
