

Re Charles
Clare's hiding
Halsey offers a place
to court on his premises
place in California

This afternoon I went out
after five. The wind
of one hour was in 3 p.
I got back in California

at the laboratory all day.
I was so foolish as to promise
an old friend that I would
examine a sample of well

water for time. There was
a good deal of sick-
ness in the insolation (done
at Long Point) and the

Dr. thought that it might
be due to the water supply.

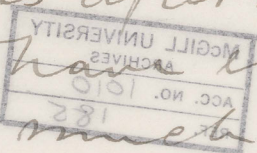

This afternoon Kerry came up to see me and enquire after Eric. He said that if Eric were well enough to go out to California he would write to his brother (who is married and growing fruit in the Santa Clara Valley) and see whether he could not arrange to take Eric in. Of course he did not know how ill Eric is and supposed that he would be able to work on the farm. I thought it was very kind of him.

This morning Mrs. Jackson left a note for Ruth with six dollars to buy a watch.

Ruth was there for breakfast
 looking and apparently told
 her of some wonderful fairy
 that she had seen in water
 line. I shall of course
 have to go and see the water
 and expect to find that it
 quite unmistakable for her.

I do not know the plant
 that you sent in - nor
 does your father to whom
 I have just shown it. I
 shall have to take it to
 Penhallow tomorrow.

Clare has had another
 ride on her favourite horse
 this afternoon and seems
 to have enjoyed it even
 so much. I find her looking

Quite another girl indeed
 she has been riding regularly.
 She got a felt hat to day.
 Monday of this time she rode
 with Mrs. Eaton. I will
 leave is fifth in her class
 this week and Ruth tenth
 (Rachel Cox 13th).

Miss Baker is just going out
 and I must ask her to post
 this. Your loving husband
 Bernard.

~~I have just shown you
 that I have a letter in
 your name has had another
 ride on his favourite horse
 this afternoon and seems
 to be enjoying it very
 much. I shall be looking~~
