I fear you
will get two letters today as
yours was not posted till
afternoon yesterday. The small
children were much taken up with
a small beyar. Bernard & Therese
began the idea - but it proved a
success in a small way. I will
help the poor men.

I was persecuted into having
a bicycle lesson yesterday, & succeeded
surprisingly, perhaps I shall learn
on more, & then I believe I'd
kick it up with a little help. I
thought it might be useful if I
cd make Bernard go out with
me, if I find trouble in disposing
of him this autumn. Many
care it does no harm to know
something of it.

The Believers are now settled
Con the 5th Star in the 6th Mollin, East
& party of the water 12th I think I shall
have to give a tea for Eva directly
we get back. she has taken passage
for 14th & if she sails then, it will be
her only chance to see friends.

If Hagar calls to stay - it will
give notice of her presence to her
friends & let them ask her you
might tell Higgie this as it will
set her up to have everything bring
I think Higgie will need her
to sit out - least - one day to help
her with heavy things & more if you
& her Walker & Con are all on her
hands - Either Clare's or Brett's room
w^d be better than the nursery we
c^d not get on without it for a
day - Flare will stay till the
5th & 6th of Solo Carter, so I ought to get
a fair start - There is a piece of
carpet - I brought - from Carpy's
(not the rug with borders I meant that)
but a no pattern tapetery Higgie
can take that for downstairs &
send off the old hard one - if it
seems no use - I hope for a
quiet week - Several boys have
left & Arrie who always turn
up when Con. might settle
down goes in a few days -
Con. was out fishing yesterday
with Mr Varley & Mr Greer with
a fine!! he brought 10⁴ nice fish
so he really has had a lot of
fun - W^m is here & he & F^r & G^r
had tea a mother's last night, we
all missed you, but it was nice
for papa to be able to sit down
with so many again -
