Re rebuilding of Eng. building or  
perhaps charity Bldg after fire

Dear Father,

I hope that by this  
time the air at sea again  
has started to work on your  
health and that you are  
beginning to feel its effects  
and find that you are  
improving. It is too bad that  
Grandma has fallen  
a victim to illness but it  
cannot be helped I suppose.  
Everything else is going along  
all right here as far as I know

I hope you have not been  
having as cold weather where  
you are as we have been  
having here it is so funny  
for this time of year.

The work of pulling down the  
college buildings is going ahead  
very rapidly now as they  
have got several large  
cranes to work to enable  
them to remove the walls  
and judging from what I  
have seen of the new plans  
for the Eng. Bldg. it will be far  
and away ahead of the old one

So after all it is another case  
 of "It is an ill wind that blows  
 no good".

Alvie is still here and helps  
 very much to keep things going.

I thought something should  
 be done for her while she  
 was here so I took her out  
 to the Horse Show on Thursday  
 night and she seemed to  
 enjoy it. Some of the jumping  
 was really wonderful. They have  
 very nearly completed the exterior  
 of the extension to your Building  
 and it won't be long before they

will have everything installed.  
 Some of the new electrical Machinery  
 is beginning to arrive now so  
 there is quite a lot to do just  
 at present. I am doing some  
 drawing for Buntz which will  
 take some time to finish.

Will had a slight cold to-day  
 so did not go to school but is  
 up and about again this  
 evening so he is all O.K.

Give my love to Mother and tell  
 her not to worry as she will be  
 kept posted and everything possible  
 is being done. As it is nearly 2 A.M.  
 I will close so with love to both of you

I remain as ever

Yours affly  
 Comad.
