

Acc. 1211

Saturday
Little Mexico.

Dear Father

just a line to let
you know that everything
is O.K. as Conrad would
say. The house down
here looks swell especially
the dining room which is
the most changed. It
is pretty cold down
here today but I think
I will play golf this
afternoon. The place

2.

will be pretty full by
the end of next week.
The Greens & some others
came down this morning.
Mother is delighted to hear
about Conrad so are we
all. I went in bathing
yesterday & the water
was simply boiling as usual.
There are very few flowers
in the garden as yet. The
lilacs are swell, the
Blakes came yesterday
& Eva seems glad
to see Dra as you
call her again

We have been out in the
funt several times it is
not bad but we think
of calling it - the "Coffee
strainer" This morning
I found a birds nest
in one of the branches
hanging over the sidewalk
thinking there might be
eggs in it I pulled the
branch down but to
my surprise about a
dozen little young ones
came flying down on
top of me & perched
on the first thing they

trouced which happened
to be my head, well
I must stop now as I
have to ^(catch) ~~get~~ the mail
hoping to see you soon
with love ever
your affectionate
& anxious Sis.

P. S. I heard that
Miss Erica Bovey
is to have the pleasure
of your company to visit
to stay with the Flets
I have no doubt that
she will be another
joy added to journey
for Bernard coming
down
