Dear Sir,

Your favour of 12<sup>th</sup> inst. only reached me today. It will give me great pleasure to comply with your different requests, but I cannot do so at once as I wish to answer your questions accurately & in order to do so I will have to keep them by me until I go to Radnor. I shall have a box of samples of ore, charcoal, pig iron, flux, & slag sent you. I can answer for it, that those interested in the Radnor Works will be pleased to show any of the members of the Association who wish it, over the Radnor Property & will endeavour to make it as pleasant for them as possible. We only regret that the furnace is so small that it is hardly worth a visit.

Yours truly G. B. Hall
