

Mc Gill Col

Dec 10, 1849

Free that the book  
a Nature? you had sent  
is no 3. I had seen one  
vol. 1. If you choose to  
buy it and read it and  
then mail to me, I shall be  
glad to have it

Dear George,

Dear George, glad to have it

Your letter of Mrs  
List arrived safe and we  
again have reason for  
thankfulness in hearing of  
your welfare. The copy of  
"Nature" about you were kind  
enough to mail did not  
arrive, perhaps being un-  
paid or some such  
thing; but I have seen  
it in the book-stores here.  
In 2 weeks will be the last  
day of lectures before Christmas,  
and I hope to have a  
little time for my papers.  
I have had as yet very  
little. Anna is doing some  
drawing for me. I have re-  
ceived by last mail a  
kind letter from Zell in  
which he mentions your journey  
ably. When you see Mr. May  
say to him that I shall

& It came to-day 10th just as I was going to  
close this.

Professors Francis (Northey) have left London  
about the first of October (about 1849) to visit on  
the tour, but is coming, but at 1849 worth notice, I believe  
at 1849 worth notice, I believe

bring with me a list of  
Dormer plants we, for  
his New Mercurus, and  
that Pelton tells me he  
has had a letter from  
him on the subject.  
I have no doubt Ives will  
answer you, and if he  
comes to London will  
give you any help you  
may want with the  
forms. If you have  
little time or feel tired,  
do not worry yourself about  
the forms & cisterns, or  
about Dr Carpenter's P.S. shells.  
I shall try to get from him  
the address of his friend  
if he has it. In the  
mean time you might  
give his letters to Carpenter  
and Westley.

We shall send you  
some little trifles by mail.  
My Christmas gift must

acquaintance which I shall  
send immediately after the  
New Year, and you may  
try your Christmas gift  
out of it. I am making  
all my plans to leave here  
about April 9th, or as  
soon as I can be in London about the  
10th. If anything occurs  
to prevent, I shall inform  
you as soon as I can.  
Please bear in mind  
that you dwell among a  
corrupt and godless people.  
Do not go into their evil  
ways; and I hope that  
you will see the beauty  
of the Gospel of Salvation  
through Christ, and that  
you will give yourself to  
him and have his  
Spirit in your heart.  
Do not allow yourself to  
feel lonely, even if your  
new friends in London

Do not continue to be  
as attentive as at first,  
God is everywhere and  
he can be your friend,  
and you may hope  
to see me and perhaps  
Mamma in April, which  
is not far off. I would  
like you to improve me  
as to your health whether  
you feel strong and well,  
or suffer from the winter  
as you used to do here.  
Be watchful of anything  
that concerns your health,  
We often feel anxious  
about you; but trust  
that our Heavenly Father  
will do all that is  
just for you.

Ever your loving father  
W. Dawson

Mr. W's parcel arrived today. I shall send  
him a V.O. order of this or next week.

When you happen to see Briggs & Davies, you  
might ask what they would advise us to doings for Mamma  
and me if we come to London for a few weeks. Could  
we lodge anywhere near you; or if not what Hotel or inn  
be advised.

W.D.

When we were in London I was  
the same, but in London, but at  
Stewart's House, I believe W.D.
