Suggestion of Nat. Hist
Chairs in Virginia & Kingston

Dear George

I send you the enclosed, not hoping that it will reach you in time to think of it, were it some delay occurs.

I have written to Dr Randolph mentioning you, and asking

to be informed if there is any delay, beyond Sept 12.

My impression is that such an appointment would

be good. The climate

is fine and the people

very interested & you know

The Northern Americans.

Since the Minister of
Militia also writes to me,
informing me that they wish
a professor of Natural Science
for the Royal Military School
at Kingston. The salary I
do not know, but it will
likely be good, and ^{the post} would
not interfere with some geological
work in summer. There may
be time to try for this;
and if you think well of
it, you might telegraph
when you get back to
Victoria.

I go to Quebec & - museum,
but may return here for
