Dear Dr Dawson,

You were

good enough to show

me yesterday a

tracing of the Bow

River, and Capt

Bryant wishes

very much to get
a copy of

that portion which

refers to the Coal
exposures at
Grassy Island &
the Stone Cove Bend,
if it will not
give you too much
trouble to let him
have it -

I am ashamed
to trouble you again
you have already been

So kind in the
matter -

Believe me,

Yours truly
