If you find any unexamined boxes or specimens I should be
glad to have them. I have
collected with my
own hands
such things
from D.C.
and I have
now sent
at them
M.D.

McGill College.
Montreal.

May 31/76

Dear Sir

I enclose you copies
of another bundle of dispatches
from Cameroon. It is understood
that the specimens have
found their way to the British
Museum and are of great value.
It is plain however that Major
C. has not given your name
as collector, and I have
written a private note
to him about this, explaining
the circumstances in which
the collection was made.

To Cameroon I
have very gratefully
the receipt of the letter

and have said that
when you return the
eggs he will be sent
if here, and that
the birds not on the
list are probably those
you got from Coates.

Do not suppose
that these things are
any trouble to me
They are a mere flea bite
in comparison with Colorado
College exams, wedding we

I hope dear George
you will have taken all
proper precautions for your
safety and that you
will be able to return to
us early in autumn. We
are all longing very much
to see you. Ever yours affectionately
W. Brewster

List of Mammals and birds received but not mentioned in the collectors notes.

Mammalia

No. of specimens.
