- Registration:** The Registration Bureau is located in Strathcona Hall and will be open daily, 9 a.m. to 5 p.m., during the Reunion. Information and tickets for all functions for which they are required will be obtainable there.
- Transportation:** Visitors from out of town are urgently requested to leave their Railway Convention Certificates at the booth provided for that purpose immediately after registering. The securing of the one half return fare depends on a sufficient number of Certificates being turned in.
- Mail:** Persons attending the Reunion from points outside the city may have mail directed to them—care of McGill Reunion, Strathcona Hall, 348 Sherbrooke St. W., Montreal.
- Golf:** Arrangements have been made with several of the city golf clubs to grant playing facilities to out of town visitors for Thursday and Friday afternoons. Introduction cards and detailed information may be obtained at the Registration Bureau.
- Demonstrations:** Any visitor interested in a special demonstration not included in the Faculty Programmes is invited to take up the matter with the Faculty in question.

*The Founders Day Convocation in 1926
came during the Reunion.*

FOUNDER'S DAY

Convocation—A procession will form up in front of the Redpath Library at 3.30 p.m. and march to the Royal Victoria College. Graduates will take their places in the procession on the College grounds, where they will be directed by the Marshall and his assistants.

X The degree of Honorary LL.D. will be conferred upon the following: His Excellency Right Honourable Viscount Willingdon, G.C.S.I., G.C.M.G., Dr. Frederick Gault Finley, C.B., The Venerable Frederick George Scott, C.M.G., D.S.O., and Samuel J. Willis, Esq., B.A.

Owing to the limited space available, it will be possible to issue very few tickets for guests. These will be for the gallery and for ladies only—wives of members of the Staff and of Graduates. Tickets will be issued at the Registrar's Office, Arts Building, East Wing, on Tuesday morning, October 5th, in the order of application.

Governors' Reception—9 p.m. The Principal and Lady Currie will receive in the new Arts Building. During the course of the evening a concert will be given in the Moyse Theatre and refreshments served. The Australian National Band will also give an open air concert on the campus.

The Library, Museum, Arts, Engineering, and Chemistry Buildings will be open to guests and the following special features will be presented:

Redpath Library—Exhibits of ancient and modern printing and of the Gest Chinese Research Library.

MacDonald Engineering Building—Hydraulic, Electrical, and Mechanical Laboratories will be open for inspection and various demonstrations will take place.

Chemistry and Mining Building—Departments of Mining and Metallurgy—Furnaces with automatic pyrometric control, and a complete testing plant for the treatment of ores of gold, silver, copper, or lead, will be in operation. The latter plant is a standard ore-dressing mill in miniature.

SPECIAL ARTS PROGRAMME

On Thursday, October 7th, at 10.30 a.m., in the Physics Building, Dr. H. T. Barnes will deliver an illustrated lecture on "Recent Advances in Ice Control," with special reference to navigation in the St. Lawrence.

SPECIAL SCIENCE PROGRAMME

The Faculty of Applied Science has arranged that on Thursday morning, October 7th, in addition to Wednesday evening, the laboratories—and more particularly the new Hydraulic and Electrical Engineering Laboratories—will be open for inspection, and there will be demonstrations of interest to Graduates.

On Thursday, October 7th, Graduates of the Faculty of Science are also invited to make an inspection of the Montreal Harbour as guests of the Montreal Harbour Commissioners on board the "Sir Hugh Allan." Lunch will be served on board.

Buses will leave Strathcona Hall at 10.00 a.m. for the Harbour and meet the boat on its return. Guest tickets, limited to seventy, may be obtained at the Registration Bureau. Bus fare 25c each way.

SPECIAL MEDICAL PROGRAMME

Montreal General Hospital

October 7th.

Surgery:

9—10.30 a.m. Surgical clinic by Dr. A. T. Bazin and Dr. E. M. Eberts and members of their respective staffs at which cases of interest will be demonstrated.

10.30—12 a.m. Operative clinic. **Place**—Surgical Amphitheatre.

Medicine:

9—10.30 a.m. Demonstrations by Dr. I. M. Rabinovitch of a new apparatus for Basal Metabolic Rate Determination and other chemical diagnostic procedures.—**Place**—Pathological Laboratory.

10.30—12 a.m. Ward visit by Dr. C. P. Howard in Ward "E," and Drs. A. H. Gordon and C. A. Peters in Ward "C."

October 9th.

Medicine:

9—10.30 a.m. Medical Clinic by Dr. C. P. Howard, Dr. A. H. Gordon and Dr. C. A. Peters. **Place**—Surgical Amphitheatre.

10.30—12 a.m. Pathological Conference by the Acting Pathologist and members of the medical staff.

- 9—10.30 a.m. Urological clinic by Dr. F. S. Patch and members of his staff. **Place**—Surgical Amphitheatre.
- 10.30—12 a.m. Ward rounds by Dr. A. T. Bazin in Ward "M" and Dr. E. M. Eberts in Ward "L," with members of their staff.

Royal Victoria Hospital

October 7th and 9th.

The wards and laboratories of the Hospital will be open to visitors, and arrangements have been made for the demonstration of material and appliances and for ward rounds by members of the staff.

Among those who will participate in this work are Drs. Archibald, Keenan, and D. MacKenzie in Surgery; Drs. Meakins, Hamilton, and Martin in Medicine; Drs. Chipman and Little in Gynaecology and Obstetrics; Dr. Mason in the Metabolism Clinic; Dr. Birkett and staff in the Otolaryngological Clinic; Dr. Byers and staff in the Ophthalmological Clinic; and Prof. Oertel in the Pathological Institute.

The Hospital will be open to visitors from 9.00 to 12.00 a.m.

Detailed programme will be announced later.

SPECIAL DENTISTRY PROGRAMME

The Faculty of Dentistry extends a hearty welcome to its Graduates who are attending the 1926 Reunion. Time brings about many changes, and in this regard the McGill Dental Clinic associated with the Montreal General Hospital is no exception. New equipment has been added and special practical departments are developing, namely, Oral Surgery and Bacteriology.

The following clinics will be given at the Hospital Dental Department:

October 7th.

- 10.00 a.m. Extracting under general anaesthetic, including ether and nitrous oxide. Orthodontia.
- 11.00 a.m. Practical cases in Minor Oral Surgery. Fixed bridgework and partial gold dentures by the one piece casting method.

October 9th.

- 10.00 a.m. Pedodontia.

All Graduates are invited to attend. Please announce your name to the admitting clerk at the Hospital Dental Clinic.

THEOLOGICAL COLLEGES

A Joint Conference of the Alumni Associations of the Theological Colleges affiliated with McGill University will be held in the Diocesan College, University Street, on Thursday, October 7th, presided over by The Reverend Principal Elson I. Rexford, LL.D.

The following programme will be presented:

- 10.30 a.m. Paper by Rev. Richard Roberts, D.D.—"The Contribution of Biology to the Study of Theology."
- 11.30 a.m. Paper by The Very Rev. W. W. Craig, D.D., Dean of Ontario—"The Contribution which the Christian Church has to make towards the solution of Present Day World Problems."
- 1.00 p.m. Luncheon in Wesleyan Theological College. Tickets One Dollar. Address by Sir Arthur Currie, LL.D., Principal of McGill University.

GARDEN PARTY

A Garden Party will be held at MacDonald College on Thursday, October 7th. Special train will leave the Bonaventure Station at 3.00 p.m., and on the return trip from Ste. Anne's at 5.00 p.m., arriving in the city about 5.40 p.m. Railway tickets (\$1.10) may be obtained at the Registration Bureau.

Dear Sir Arthur,

I have been asked to take charge
of the Committee of Publicity in connection with the
Graduates' Reunion to be held from October 14th. to 17th.,
next.

I would be much obliged if you
could give me a few moments of your time, any day next
week, to discuss one or two small matters with you.

Yours very truly,

Dear Mr. Jaquays,

Every day the reporters of the Montreal press come into our office for news, and they are complaining that while they know the McGill Graduates' Reunion is to be held in October, there is a lack of publicity material. We know the attitude of the press is very sympathetic, but they say they can't get the material. The Reunion is less than a month away, and in my opinion we ought to be getting columns of publicity out, in order to awaken interest. I understand from the Secretary of the Graduates' Society that there is a Committee in charge of publicity for the Reunion. Do you know why they are not functioning in a more effective manner?

Ever yours faithfully,

Dear Sir Arthur:

Very many thanks for yours of Sept. 22nd regarding publicity in connection with the Graduates' Reunion. I already have taken this matter up with Mr. G. Glassco, Secretary of the Graduates' Society. Arrangements have been made with the Southam Press and the Canadian Associated Press to publish matter concerning the Reunion in some 23 papers.

I would be very much obliged if you would refer any reporters calling on you for information to Mr. Glassco. I have asked him to see that there is a constant output of publicity material for them. I think that the data published in connection with the last Reunion might be rewritten with additional matter.

Yours faithfully,

Dear Sir Arthur:

Next October the Graduates' Society will hold its Third Quinquennial Alumni Reunion, when it is hoped that a large number of graduates will revisit Old McGill.

For your information we are enclosing a copy of the proposed program, and on it you will note that the Fall Convocation is mentioned. *not enc.*

In this connection, a sub-committee, consisting of Messrs. J. C. Kemp, J. T. Hackett, and G. McL. Pitts, has been appointed to confer with you, and you will be hearing from them in the very near future.

At the last meeting of the Reunion Committee, I was requested to make a suggestion to you in regard to the forthcoming Convocation this month. Would you be so kind as to make an announcement at Convocation, of the Graduates' Reunion, for it is felt that both the young graduates, and those among the audience, will be interested in hearing about the Reunion, which is to take place next October.

Hoping that you will see your way clear to making this announcement,

Faithfully yours,

Executive Secretary

Sir Arthur Currie,
Principal and Vice-Chancellor,
McGill University,
Sherbrooke Street West,
Montreal.

Dear Sir Arthur:-

In connection with the McGill Reunion in October, it is proposed putting on a Smoking Concert on the night of Wednesday, the 14th of October, and to have a meeting of the Graduates on the morning of Friday, the 16th. It is our wish and desire that you will be able to address the Graduates at both the Smoker on Wednesday night and the Meeting on Friday morning. We feel that you can make the Graduates realize as no one else can what the University has been doing the last ten years, what are its accomplishments and what are its aims and objects.

If you would be good enough to have your Secretary telephone me and make an appointment for some hour convenient to you, I would be glad to go and discuss this matter with you.

Yours very truly,

Dear Mr. McKinnon,

I have your letter of the 20th and will
gladly fall in line with any arrangements the graduates
make for the Reunion next October.

The morning is the best time to see me,
and any hour you name will be agreeable to me.

Montreal.

Dear Sir Arthur:-

The Montreal Branch of the McGill Graduates' Society intends holding a Luncheon at either the Windsor or Mount Royal Hotel on the 24th or 25th of September as a preliminary to the Reunion being held in October. The purpose of this Luncheon is to get the local Graduates together for the purpose of stimulating their interest in the Reunion.

We are very anxious to have Mr. Beatty and yourself address us at the Luncheon, and I am writing to ask you if you would do us the favour of speaking to us at this Luncheon, and, if so, whether either of these two dates would be suitable to you. After I hear from you, I will get in touch with Mr. Beatty, but whether or not he can address us, we want you.

MCGILL UNIVERSITY,

July 15, 1931.

TO THE MEMBERS OF THE
MCGILL GRADUATES' SOCIETY.

It is my hope that all graduates who can attend the 1931 Reunion in October will do so. Your friendly and continued interest in McGill is part of our well-being, and that interest should be heightened and illuminated by a knowledge of the University's growth and progress from year to year.

Some evidences of growth and progress cannot fail to strike even the most casual observer. Since the Reunion of ten years ago, many new buildings have been erected, the most striking of which is the new Arts Building completed in 1926. Nor will women graduates fail to notice the large and handsome addition just made to the Royal Victoria College, whereby the accommodation is more than doubled.

Statistics of enrolment are just as striking. Since 1921 the registration in Arts has doubled and the staff of instructors nearly doubled. Similarly, in the Medical Faculty the number of instructors has greatly increased, but the notable feature here appears in the great number of full-time men.

Since 1921 the Graduate Faculty has been reorganized, and the increase in the enrolment of post-graduate students is truly remarkable. As evidence of the great growth of the Graduate Faculty, the Departments of Physics and Chemistry may be cited. Before 1919 only four candidates in all the previous years of McGill's existence had received the Ph.D. in Chemistry. Since 1919 sixty-four candidates have received this degree, one-third of whom now hold university teaching positions, fifteen in Canada and six in the United States. Since 1895 sixty-five degrees M.A. and twenty Ph.D. or D.Sc. have been granted in Physics, eighty-five degrees in all, of which thirty-two have been awarded within the last five years. Last year there were nearly two hundred and forty men and women doing post-graduate work at McGill, while those in this Faculty receiving degrees at the 1931 Convocation constituted one of the largest graduating classes. And so on through the Faculties and Departments.

Needless to say, physical equipment has more or less kept pace with personnel. But I do not wish to lay over-much stress on size and numbers. Rapidly increasing numbers, as most educationists agree, bring attendant

difficulties. Many of us are alive to these difficulties, in fact they bulk large in our day-to-day problems. But to some important inner developments, which do not so easily strike the observer, I venture to call your attention.

The old Arts Faculty is now known as the "Faculty of Arts and Science," and on both sides it has been greatly strengthened. Not only has this enabled us to add and improve courses of study; it has also infected staff and students with a generous enthusiasm. One of the most striking changes is the position occupied by the biological sciences in the 1931-32 curriculum, compared with their position before 1920. At that time there was at McGill no full-time Chair of Pharmacology or of Biochemistry or of Bacteriology; there was no "Research Professor" of Physiology, in fact, the teaching Professor of Physiology stood alone in his department, without assistants, and without even a laboratory boy. With the completion of the Biological Building in 1922, housing the Departments of Physiology, Pharmacology, Biochemistry, Botany and Zoology, McGill definitely turned towards the building up of an outstanding position in the biological sciences. Today research work is in active operation, and Tait and Babkin in Physiology, Stehle in Pharmacology, Collip in Biochemistry and Murray in Bacteriology constitute a very eminent group. The biological sciences are now general university subjects, having their place in the curriculum of the Faculty of Arts and Science as well as in that of the Faculty of Medicine.

The Graduate Faculty, meantime, has been achieving quiet triumphs in the success of its students after leaving our doors. In one or two departments the achievements of our post graduate students have been most notable.

In the Faculty of Applied Science, henceforth to be called the "Faculty of Engineering," special efforts have been made over a period of years to assess the most important needs and to compare ourselves with other institutions, where such comparison is helpful. That these efforts have not been vain may be seen from the place which the graduates of this Faculty fill not only in the life of Canada but in the world at large.

The Department of Agriculture at Macdonald College has contributed at many points to the welfare of the rural community, and there are many research projects under study from which splendid results have already been achieved, while the promise for the future is bright indeed. More and more is Macdonald College becoming a research institution.

I feel that under Dean Corbett the Faculty of Law has made splendid progress. At the 1931 Convocation the graduate class was not only one of the largest within the last ten years, but, what is more important, every man but one had already obtained a university degree. In fact, in Law as well as in Medicine, 95% of the students are already graduates of another Faculty.

The decade has witnessed very marked changes in the Medical Faculty. New buildings include the Pathological Institute, the Biological Building, the Laboratory for Experimental Surgery and Animal House, and the Osler Library. But there have been changes also in the general policy with respect to the administration of the school, the standards of admission, the qualifications for the degree, and in the teaching and the teaching staff. In 1920 reasonable doubts were expressed as to whether McGill at that time occupied a place in the first flight of medical schools of this Continent. Since Professor C. F. Martin became Dean, these doubts have disappeared, let up hope never to return. Our Medical School is still pre-eminent.

But it would be tedious to make a long catalogue. Let me add a couple of instances merely to show what I mean by the enthusiastic spirit of McGill—and in matters that reach far and wide beyond her borders.

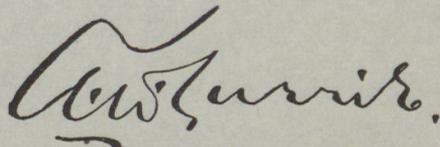

Last winter Douglas Clarke, Dean of the Conservatory of Music, snatched the opportunity out of a very untoward situation to create the Montreal Symphony Orchestra. In this effort he had the enthusiastic support of many of the staff in all Faculties, and of their wives. This orchestra has been an undreamt-of boon to the community of Montreal and to a radio community far beyond Montreal.

Another example: some members of the staff have made a concerted effort to co-operate with the necessary authorities in improving the work of the schools and in aligning courses in the Arts Faculty and in the High Schools. Certain McGill professors in the past have always shown a vital interest in the work of the schools, but the recent effort, through a happy organization of interests and with the skilful aid of F. Clarke, Professor of Education, has already achieved promise of notable results. Hitherto, we have concentrated on the selection of good professors: from henceforth we shall attend also to the creation of a select class of good students, who will be better fitted to profit by higher education. It is contemplated that the Honours students will in turn re-enter the schools as teachers, and bring about a needed quickening there.

In the hope that I may see you at the Reunion, and with friendly greetings, meantime,

I am,

Ever yours faithfully,

Lieut. General Sir Arthur W. Currie,
Principal McGill University,
Montreal.

Dear Sir Arthur, -

I cannot let pass the opportunity of writing to thank you most warmly for the most interesting survey of interesting events at McGill during recent times which reached us here along with an invitation from the Secretary of the Graduates Society to attend the (annual) Re-union. Unfortunately my teaching duties at the University here prevent my travelling so far afield during our session, but I shall be there in spirit at least among many comrades and dearly cherished scenes of other days.

It was a great joy to the Graduates here to have you with us last autumn. The spirit of McGill is a vital thing and needs to be refreshed from time to time, and not least of these means of refreshment is a visit from our beloved and respected Principal.

I trust your health is maintaining itself since your return to McGill.

Yours very sincerely,
Harry J. Logan.

Thank you for your letter
of the second.

While I was away last winter each department of the University surveyed itself and have furnished me with most interesting reports. To these I am giving considerable study. They are to be edited and published and I think will be appreciated by the graduates.

I am sorry that it will be impossible for you to come to the Re-union. Owing to the depression it is probably not a very favourable time, but, as we started to have them every five years, we did not wish to make a break.

My health, I am glad to say, is very good indeed. I believe that what happened to me a few years ago was merely an old-fashioned "nervous break-down".

Cordially reciprocating your good wishes, I am,

Yours faithfully,

Sir Arthur W. Currie, G.C.M.G., K.C.B.,
McGill University,
Montreal.

Dear Sir Arthur:

Regarding the McGill luncheon which the Montreal Branch Society is holding on Tuesday September 29th, at the Windsor Hotel, we wish to thank you for your kindness in accepting our invitation to come before the graduates of Montreal on this occasion, and speak to them on the subject of the Reunion. We are enclosing a complimentary ticket.

At the last meeting of the Reunion Committee, it was decided to invite you, Sir, and Lady Currie, Mr. and Mrs. H. M. Jaquays, and Mr. and Mrs. C. G. Mackinnon to act as patrons and patronesses for the dance to be held during the Reunion, on Thursday night, October 15th, in the Mount Royal Hotel.

We hope that you and Lady Currie will do us the honour and kindness to act in this capacity on this occasion.

Faithfully yours,

Executive Secretary

My dear Mr. Currie

Dr. Jacks has asked me to acknowledge for him your telegram of September 30th and to express his appreciation of your very cordial invitation to meet at the University Graduates Reunion in Montreal on October 15th.

Unfortunately, Dr. Jacks' schedule is so full that it is not possible for him to meet with you. On October 15th, for instance, he is scheduled to be in Rochester, New York, for a meeting there.

Sincerely yours

Montreal, October 1st, 1931.

Sir Arthur W. Currie, K.C.B., G.C.M.G., L.L.D.,
Principal and Vice-Chancellor,
McGill University,
Montreal.

Dear Sir Arthur:

I am writing you this as a memorandum of the
matters which we talked over to-day.

1. Broadcasting on Oct. 9th.

Arrangements have been made by Mr. Pitts that the "Little
Forum Broadcasting Station" would be at our disposal for
about 20 minutes on the evening of Oct. 9th. There will
be four people beside yourself to say a few words. The
speakers are to be - yourself, myself as President of the
Graduates' Society, Mr. McKinnon as President of the
Montreal Branch of the Graduates' Society, Miss Slack, as
President of the Alumnae Association, and somebody to say
a few words about Sports - probably Mr. Shaughnessey.
If you will let me know just what time you would like to
use, I will advise the others so that they may arrange their
remarks accordingly.

2. Memorial Tablets.

Officers of the Graduates' Society will arrange to visit
McGill on Oct. 13th, the day before the commencement of the
Reunion, and put wreaths on all Memorial War Tablets and
also on the monument of Mr. James McGill.

3. Banquet.

It has not been the practice to have toasts at the Banquet,
but we have come to the conclusion that we will try to have
at least one toast - i.e., McGill. If Mr. Bennett can be
present at the Banquet we might possibly have a toast to
Canada as well, which will afford him an opportunity of
speaking. We will ask Dr. Colby to propose the toast to
McGill, and we will leave open the matter of choosing
someone to respond to this until we hear whether or not
Mr. Beattie will be in town on that day.

*What about
Sh Wm
Macdonald?*

4. Convocation.

I would be very much obliged to you if you would let me know as soon as you have definite information as to whether Mr. Bennett will be present to get his degree.

5. Visitor.

You kindly consented to ascertain whether or not His Excellency would be in this part of the Country on Saturday, Oct. 17th, as if so we would ask him to be our guest at the Football Game. We would, of course, like to get this settled as soon as we have any definite information.

6. Dance.

A Dance will be held on Thursday evening, Oct. 15th, and we are indebted to you for kindly consenting on behalf of yourself and Lady Currie to act as Patrons on that occasion to receive the guests.

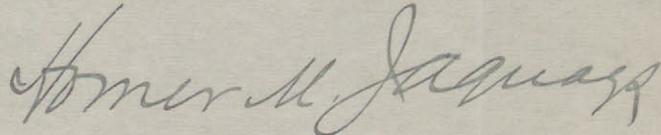

7. Tablet - Dr. Thornton.

We will act on your advice that the Tablet to Dr. Thornton will be unveiled at the Convocation, and will so advertize this.

8. Tablet to the late Dean H. M. MacKay.

I hope some arrangement can be made whereby the students will unveil this during the Reunion. MacKay had a great many friends among the graduates, and I am sure they would appreciate the privilege of being present where any tribute to his memory might be rendered. If Friday morning was not suitable, I see no reason why it should not be worked in some time during Saturday morning, if that is more convenient to the undergraduates.

Yours faithfully,

President,
The Graduates' Society of McGill University.

Homer Jaquays, Esq.,
President,
The Graduates' Society.

Dear Mr. Jaquays,

I have your letter of yesterday, being a memorandum of the matters we discussed at luncheon.

1. I will adjust my engagements for the evening of October 9th to suit the Broadcasting people, but I suggest 9.30 or thereabouts.
2. Re Memorial Tablets may I suggest that you include Sir William Macdonald in your publicity and that you hang a wreath on his bust, which is in position in the hall of the Macdonald Engineering Building.
5. Football - I have already written to His Excellency.

Ever yours faithfully,

Principal.

Dear Sir Arthur:

Your letter of October 2nd. has reached me.

Memorial Tablets.

Thanks for the suggestion re. putting a wreath on the bust of Sir William Macdonald in the Macdonald Engineering Building. I am very glad you thought of this.

Broadcasting.

Mr. Pitts advises me that the time which has been allotted is from 8.00 to 8.30 P.M. The actual time which will be available for the McGill speakers will be about 20 minutes, as a portion of the period will be required by the announcers. They will be ready for your talk at approximately 8.05 P.M. As I explained to you at the meeting, there will be yourself and four others to speak, and the remarks of the others will depend upon how much of the 20 minutes you wish to use. My thought was that you would want to be about 8 or 10 minutes, and the others $2\frac{1}{2}$ to 3 minutes each.

Banquet.

I have wired Mr. Beatty concerning being here for the Banquet, but have not yet heard from him.

Yours faithfully,

President,

1931 OCT 3 PM 7 56

OCT 18 1931

September 24,
1931.

The quinquennial Reunion of Graduates of McGill University takes place next month from the 14th to 17th of October inclusive. We expect graduates here from all over the Continent, and in connection with the ceremonies to be held on the different days there will be a Convocation on October 14th, when we expect that some four or five distinguished graduates will receive the degree of LL.D. honoris causa.

It is the wish of the Graduates' Society, in which the Deans of the University concur, that you accept the degree of Doctor of Laws honoris causa on that occasion, and that you address the graduates. They feel, and in this I most warmly concur, that now is an appropriate time for a man occupying the position you do to make an appeal to University men and women to play the part that university graduates should play in these days of anxiety. They believe that never were we more in need of straight and sane and honest thinking, and never was there an occasion more appropriate for the display in the service of the state of those qualities which should characterise the educated man.

There are two things I would ask you to bear in mind in making your reply. In the first place, the University would consider it an honour to honour you, and believes that you might possibly regard it as an encouragement to you in these anxious days. In the second place, you will have an audience all of whom are university graduates. They ought to be worth speaking to, and a message to them should have a far-reaching effect.

The matter does not become official until approved by Corporation, which meets on October 2nd, but I may say to you that I have never known Corporation do otherwise than approve of a recommendation unanimously made by the Deans and myself. Nothing can be said of it publicly until after Corporation meets, but I am giving you this early intimation in order that you may have more time to consider what would be appropriate to say.

May I hope for a favourable reply?

Ever yours faithfully,

Principal & Vice-Chancellor.

Captain A. F. Lascelles,
Secretary to the Governor-General,
Governor-General's Train.

My dear Captain Lascelles,

Press dispatches this morning convey the intimation that His Excellency has cancelled his tour of Nova Scotia. It has occurred to me that this would be the curtailment of his visit to the Maritime Provinces. You will recall that the Graduates of McGill University were very anxious that he be the guest of honour on the occasion of the Football Match between the University of Toronto and ourselves on the afternoon of Saturday, October 17th.

The three days previous are taken up by what is known as the McGill Graduates' Quinquennial Reunion. These Reunions are occasions of a good deal of enthusiasm, and one of the main features is this Football Match with our old rivals of Toronto. The occasion is unique, and I am sure His Excellency would greatly enjoy seeing a good match of Canadian football. There would be no obligation other than what I have suggested.

The match is held at two-fifteen, and he could get away on the evening train to Ottawa.

Let me know if this suggestion is agreeable to him, and if so how many we may expect in the party.

Ever yours faithfully,

Song Sheet

For use at Reunion Smoker - Oct. 14th

and

Reunion Banquet - Oct. 16th

1—O CANADA

O Canada! Our home, our native land,
True patriot love in all thy sons command,
With glowing hearts we see thee rise,
The true north strong and free;
And stand on guard, O Canada,
We stand on guard for thee.

O Canada! O Canada! O Canada!

We stand on guard for thee.

We stand on guard for thee.

O Canada! We stand on guard for thee.

O Canada! terre de nos aïeux;
Ton front est ceint de fleurons glorieux;
Car ton bras sait porter l'épée
Il sait porter la Croix!
Ton histoire est une épopée,
Des plus brillants exploits.
Et ta valeur, de foi trempée
Protègera nos foyers et nos droits,
Protègera nos foyers et nos droits.

2—PUT ON YOUR RED AND WHITE SWEATER

Put on your red and white sweater,
For you'll have none better,
And we'll open up another keg of beer.
For it's not for knowledge
That we came to college,
But to raise H - - - all the year.

3—McGILL STUDENTS' SONG

When a Freshman I sought old McGill's classic
shade,
O McGill! Alma Mater McGill!
I trembled with fear at the learning displayed,
O McGill! Alma Mater McGill!

That I vow from thy precincts I nearly had flown,
For each Don looked so wise in his trencher and
gown.
And each Freshman so green in a study so brown.
O McGill! Alma Mater McGill!

In due time behold me a bold *Sophomore*,
Chorus—O, McGill! etc.,
When I chaffed all the Freshmen who envied my
lore,
Chorus—O, McGill! etc.,
Then I tried to forget that I'd e'er been a boy,
But manhood came slowly my pride to annoy,
And I lounged through thy halls a great hobble-de-
hoy;—
Chorus—O, McGill! etc.

Next a *Junior*, I learned that for each undergrad.,
Chorus—O, McGill! etc.,
By hard work alone true success can be had.
Chorus—O, McGill! etc.,
So with ardour supreme I at last "buckled to,"
And the sweet truths of learning came clearly to
view,
And I quaffed the rich nectar that's furnished by
you,—
Chorus,—O, McGill! etc.

Can I tell the pride of my *Senior* year?
Chorus—O, McGill! etc.,
How I dangled so long between hope and great fear?
Chorus—O, McGill! etc.,
But exam's soon all over, and shortly I see
That I've passed with due honor and gained my
degree;
Then I say as the fair sex look smiling at me,
Chorus—O, McGill! Alma Mater, Farewell!—

Here's a song for the *Founder*, who'll ne'er be forgot.
Chorus—O, McGill! live for ever, McGill!
Here's the *Chanc'lor* and *Gov'nors*, the whole jolly
lot.
Chorus—O, McGill! Alma Mater, McGill!
Here's our good *Benefactors*—benevolent elves,
Here's the *Deans* and *Professors* and *Old Grads*
themselves,
And last, but not not least, *here's our own noble*
selves.—
Chorus—O, McGill, Alma Mater, Farewell!

4—JAMES MCGILL

James McGill! James McGill!
Peacefully he slumbers there
Blissful though we're on the tear
James McGill! James McGill!
He's our father, well yes rather James McGill!

Arthur C., Arthur C.,
He both make our College run,
Takes no "guff" from anyone,
Arthur C., Arthur C.,
Held "the Corps" then;
Hold the floor then,
Arthur C.

Steven L., Steven L.,
Though he knows a lot of "biz"
Novels made him what he is
Steven L., Steven L.,
Economics, Public tonics,
Steven L.

5—HAIL, ALMA MATER

Hail, Alma Mater, we sing to thy praise,
Great our affection though feeble our lays,
Nestling so peaceful and calm 'neath the hill,
Fondly we love thee our dear old McGill.

Hail, Alma Mater, we sing to thy praise;
Loud in thy Honour, our voices we raise.
Full to thy fortune, our glasses we fill.
Life and Prosperity, Dear Old McGill.

Hail, Alma Mater, thy praises we sing:
Far down the centuries, still may they ring.
Long through the ages remain—if God will,
Queen of the Colleges, Dear old McGill.

6—COME, FILL YOUR GLASSES UP

Come, fill your glasses up to McGill, McGill, McGill,
Come drink a loving cup to McGill, McGill, McGill,
We will drink the wine to-night,
Drink the wine that makes hearts light,
Come fill your glasses up to McGill, McGill, McGill.

Come, sing a joyous song to McGill, McGill, McGill.
Sing as we march along to McGill, McGill, McGill.
We will meet them on the field,
We will make our rivals yield.
Vict'ry shall crown the shield of McGill, McGill,
McGill.

7—LANDLORD, FILL THE FLOWING BOWL

Come, landlord fill the flowing bowl
Until it doth run over,
Come, landlord, fill the flowing bowl
Until it doth run over.
For tonight we'll merry, merry be,
For tonight we'll merry, merry be,
For tonight we'll merry, merry be,
Tomorrow we'll get sober.

Solo—

The man who drinks good whiskey punch,
And goes to bed right mellow,
The man who drinks good whiskey punch,
And goes to bed right mellow,
Lives as he ought to live,
Lives as he ought to live,
Lives as he ought to live,
And dies a jolly good fellow.

The man who drinks cold water pure,
And goes to bed quite sober:
The man who drinks cold water pure,
And goes to bed quite sober.
Falls as the leaves do fall,
Falls as the leaves do fall,
Falls as the leaves do fall,
So early in October.

But he who drinks just what he likes,
And getteth half-seas over,
But he who drinks just what he likes,
And getteth half-seas over,
Will live until he dies, perhaps,
Will live until he dies, perhaps,
Will live until he dies, perhaps,
And then lie down in clover.

8—JOHN PEEL

D'ye ken John Peel with his coat so gay,
D'ye ken John Peel at the break of the day,
D'ye ken John Peel when he's far, far away,
With his hounds and his horn in the morning?

Chorus—

For the sound of his horn brought me from my bed,
And the cry of his hounds which he oft-times led;
Peel's view halloo would awaken the dead,
Or the fox from his lair in the morning.

Then here's to John Peel from my heart and soul,
Let's drink to his health, let's finish the bowl,
We'll follow John Peel thro' fair and thro' foul,
If we want a good hunt in the morning.

Chorus—

9—ALOUETTE

Alouette, gentille alouette,
Alouette, je te plumerai,
Je te plumerai la tête, je te plumerai la tête,
Et la tête, et la tête, et la tête.

Chorus—

O Alouette, gentille alouette,
Alouette, je te plumerai.

Je te plumerai le bec, je te plumerai le bec,
Et le bec, et le bec, et la tête, et la tête, O etc.

Je te plumerai le nez, je te plumerai le nez,
Et le nez, et le nez, et le bec, et le bec,
Et la tête, et la tête, O etc.

Je te plumerai le dos, je te plumerai le dos,
Et le dos, et le dos, et le nez, et le nez,
Et le bec, et le bec, et la tête, et la tête, O etc.

Je te plumerai les pattes, je te plumerai les pattes,
Et les pattes, et les pattes, et le dos, et le dos,
Et le nez, et le nez, et le bec, et le bec,
Et la tête, et la tête, O etc.

Je te plumerai le cou, je te plumerai le cou,
Et le cou, et le cou, et les pattes, et les pattes,
Et le dos, et le dos, et le nez, et le nez,
Et le bec, et le bec, et la tête, et la tête, O etc.

10—THE THREE CROWS

There were three crows sat on a tree,
O Billy Magee Magar!
There were three crows sat on a tree.
O Billy Magee Magar!
There were three crows sat on a tree,
And they were black as black could be,
And they all flapped their wings and cried
Billy Magee Magar,
And they all flapped their wings and cried
Billy Magee Magar.

Said one old crow unto his mate,
O Billy Magee Magar!
Said one old crow unto his mate,
O Billy Magee Magar!
Said one old crow unto his mate,
"What shall we do for grub to eat."
And they all flapped their wings and cried
Billy Magee Magar!
And they all flapped their wings and cried
Billy Magee Magar.
