HOPPER, VV. EARL.

November 14, 1939

Dear Sir Edward,

You asked me some time ago to find out what I could for you about a Mr. W. Earl Hopper of the Hopper Peace Foundation of Oglethorpe University.

First, may I say that Mr. Hopper had already written to the Principal of the University in Mr. Morgan's time, but that we merely sent a courteous acknowledgement.

Second, I enquired of the General Education Board of the Rockefeller Foundation and have now the following reply:

"I returned a day or two ago from a journey South. While at Atlanta I asked several persons about W. Earl Hopper of the Hopper Peace Foundation of Oglethorpe University, but elicited no information whatever. It appears that he has written to certain institutions offering his services to them. In no case, however, had the matter received consideration so that the impressions were vague. One of the presidents said he thought he could send me some information. It has not been received, but should it come in I shall be glad to pass it on to Mr. Douglas. We have nothing in our files here regarding Mr. Hopper and my associate, Mr. Davis, who knows the South well, does not know him or the Hopper Peace Foundation. Yours sincerely, A. R. Mann." - Vice-President and Director, General Education Board.

Yours sincerely,

The Chancellor.

Dear Mr. Stroud:

Your letter of October 25th inquiring concerning W. E. Hopper has just come in. We have no records in the office about Mr. Hopper or the Hopper Peace Foundation, and on a quick inquiry among my associates I have been unable to get any information. I have not heard of the Foundation. I am, however, leaving for Atlanta in less than two hours and will make quiet inquiry there to see whether I can get any facts. If I have any luck I will send the information on to Mr. Douglas.

Before leaving Montreal last night, Mr. Douglas asked us to write you in regard to a Mr. W. Earl Hopper, of the Hopper Peace Foundation of Oglethorpe University. However, Mr. Hopper is apparently now residing at Weehawken, New Jersey.

Can you give Mr. Douglas any information about this man and his Foundation?

We are very sorry that Mr. Douglas is not here to write you personally, but are sure you will understand our writing in his behalf.

Dear Sir Edward,

I am afraid I can tell you nothing about Mr. W. Earl Hopper, who is supposed to be Director of a Peace Foundation at Oglethorpe University Georgia, but I shall make some enquiries. In the meantime I am retaining your file. I doubt if there is very much to this.

Dear Mr. Douglas,-

I am sending you herewith a file of
correspondence concerning Mr. W. Earl Hopper, Director of the
Hopper Peace Foundation of Oglethorpe University.

As I do not know Mr. Hopper personally, his
request of me is a little out of order, but if I could be
fortified with some real facts about him possibly I might feel
differently. As he is now resident in New Jersey it may be
that he has, for some reason or other, severed his connection
with Oglethorpe.

I wonder if you would be good enough to have
someone enquire indirectly of the authorities of Oglethorpe
University about Mr. Hopper. I think this could be done more
appropriately by you than by me.

Yours sincerely,

My dear Sir Arthur:

I was very much delighted indeed on turning over the pages of the McGill News to learn that you have once more returned to the University refreshed in spirit and renewed in health. It was a great shock to all of your friends when they heard of your illness and the consequent loss to McGill as the result of your enforced absence.

I sincerely hope that in the coming years McGill will show the benefits which must accrue from your guidance and direction and I hope that your talents and efforts may long be spared to the Old Alma Mater.

Dear Sir Arthur:-

Appreciating your deep interest in the welfare of all public institutions of Montreal, and especialy of the Hospitals, I beg to draw your attention to N O T R E D A M E, operating in the City for nearly fifty years. The Hospital in its new quarters, on Sherbrooke St. East, has a heavier financial burden to carry, and naturally counts on the generous support of the Public.

Notre Dame Hospital would be honored and grateful, indeed, if you would kindly become Life Governor of the institution.

In the name of the Board of Directors,
I thank you in anticipation and remain,

The enclosed leaflet has just reached me in an envelope re-directed from London. I am sending it on to you, as it illustrates one of the points that came up in our talk at the Mount Royal Club on Monday - the provision of free public lectures by the various Departments of London University. I do not want the leaflet back again.

Might I trouble you to let us have a copy of some recent report of Mc Gill that would give me the figures of students attending the principal courses? It should be addressed to me care of Miss N. V. Dear Sir:

At the recent Planning and Housing Conference held at the Chateau Laurier, Ottawa, March 16th to 18th, attended by 237 persons widely representative of all Provinces of the Dominion, and including in their numbers Town Planning Officials, Architects, Engineers, Housing Authorities, as well as many of the Mayors and Civic Officials of Canadian Municipalities, a resolution was passed urging Educational Institutions and Movements throughout the Dominion to give consideration to the present need for a larger public understanding of the Housing Problem and its related Town Planning aspects.

As Secretary of the Conference I have been instructed to forward a copy of this resolution to you, drawing to your attention the importance of the matter it deals with and inviting your earnest consideration of its request.

Yours very sincerely

RESOLUTION: PLANNING AND HOUSING EDUCATION

WHEREAS it is highly desirable and important that the great body of citizens throughout the Dominion be informed on matters pertaining to Planning and Housing; and

WHEREAS this is a field of interest for adult and secondary Education, as well as for informal education movements throughout the Dominion; and

WHEREAS educational authorities in many countries have already sensed the importance of an informed public opinion on the subject of housing and planning, and have instituted various measures to promote this; and

WHEREAS the enlightened cooperation of local communities and citizen bodies is essential to the success of a national housing policy;

THEREFORE be it resolved

THAT educational bodies, both governmental and private, should be urged to take an active interest in the subject of housing and town planning, and by means of study groups, the distribution of literature, the formation of committees, the arranging of exhibitions, etc., help to spread a knowledge of housing needs and principles and the means by which housing conditions can be improved.

HOUSING

The supply of auxiliary data prepared in the course of the Social Research Programme has already made it possible for the University to aid in a material way in the preparation of two housing reports: a report on Housing and Slum Clearance, sponsored jointly by the Montreal Board of Trade and the City Improvement League, much of which after submission to the recent special Housing Committee of the Federal House of Commons was embodied in this Committee's report; and a report on Incomes, Rents, Housing Standards, etc., sponsored by the Montreal Council of Social Agencies, which is to be submitted to both the Provincial and Federal Governments.

The subject of Housing stands particularly in need of careful and integrated study, because it may be viewed from at least three divergent angles : (a) Slums and inadequate housing as related to the growth of the city, regional change and deterioration, industrial localization, the need for town planning, etc.; (b) Housing in relation to income and employment, assisted housing as one of the most direct ways of raising living standards, etc.; (c) Housing projects as one of the most desirable and effective types of works programmes, as an employment measure and a field for government "recovery" expenditures, etc. Not only are these approaches often confused, but each is easily open to treatment in too narrow a way.

At the present moment when housing is the subject of a new wave of public attention, the University could render a most valuable service by adding at least one study in each of the three fields outlined above to its programme, placing the research assistants in each project

not in one particular Department, but under the joint guidance of all members of social science and other departments who can contribute an important viewpoint. It is important also that these studies should make as careful an assessment as possible of the great fund of experience of Great Britain and certain other European countries and more recently of the United States, in urban and rural housing and in related matters.

December 19th, 1929.

My dear Sir Arthur;

Sir Esme Howard is planning to pay a short visit to Canada during the latter part of January in order to say good-bye to his friends on his retirement from the Embassy here. He expects to arrive in Montreal at 8.00 a.m. on January 27th, leaving for Ottawa at 4.10 p.m. the same day. He will have a secretary with him. Lady Isabella Howard who is going to Canada with her husband, will probably go straight through to Ottawa without stopping in Montreal.

It has occurred to me that you or someone from amongst Sir Esme's friends ^{in Montreal} might care to put him up at the Club while he is there and collect a few friends to meet him at lunch. I hope you will forgive my writing you but Sir Esme's visit will be so short that I thought it might be a mutual convenience to him and those who would like to meet him for me to write to Montreal on his behalf, well in advance of his arrival.

With warmest regards to you and Lady Currie in which my wife joins, and every good wish for the New Year,

Sir Esme left Washington yesterday for New York, where I am to join him tomorrow, and I shall be happy to show him your letter then. I understood from him before he left that the arrangements which have been made for him in Montreal are entirely agreeable to him and that there was nothing which he wished to add to them. I know he will be most grateful for your kindness in placing a car at his disposal. He will arrive at Montreal by the C.N.R. at Bonaventure Station at 8.0 a.m. on January 27th, and he has engaged rooms at the Ritz Hotel. I am only sorry that this is my farewell to Canada.

My Private Secretary, Michael Wright, has shown me your letter of January 25th, which was received this morning having been forwarded on from Washington, and I much regret that you were not informed before of my wife's change of plans. I felt, however, that the journey would make so many demands upon her that it was better that she should not run the risk of being over-tired. My dear Colonel Bovey:

Replying to your letter of the 10th instant, it is a pleasure to be able to inform you that Professor W. V. Howard, whom I presume is either a native Canadian or a domiciled British subject, is in the non-quota class,

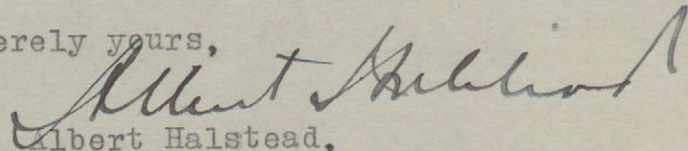

If he is a native Canadian, that fact would make him non-quota. If he is a British subject domiciled in Canada he is non-quota, provided, of course, he has been a professor for two years. If he is not a native Canadian a letter from General Sir Arthur Currie stating that he has been a professor or a teacher for two years would enable me to grant him a visa, subject, of course, to his being in good enough health to pass the Immigration Officers.

Professor Howard's wife can join him. If I should obtain details about her I should be very glad to write
to the/

to the American Consul General, London, England,
requesting for her a visa there. The fee of \$10.00,
one dollar for the application and nine for the visa,
