Report:

Oct. 22/11.

An original unpublished water-colour drawing by Rowlandson, depicting "Dr. Wm. Hunter's Dissecting Room, Windmill St. Haymarket"; a group of doctors &c. gathered round a table in the centre, upon which a body is in process of dissection; on the right two doctors opening a corpse on a smaller table, & on the left another doctor disembowelling a third body. On the back of the picture the following doctors are identified in an old handwriting: Hunter, Cruikshank, Howison, Smollett, & Hewson; while a note adds "the others were probably meant for Pitcairn, Baillie, Howe, Sheldon, &c."

Size of actual drawing about 15 $\frac{1}{2}$ x 11 $\frac{1}{2}$ inches with margins.

A very interesting picture, possibly designed for the "Microcosm of London" but not used on account of the gruesomeness of the subject.

Small parcels of Books or whole Libraries purchased for prompt Cash.

The items in D are each priced separately in pencil on the

Dec. 11. 1914.

Dear Sir.

We thank you for your letter of Dec. 7, and have been making enquiries with regard to the price of the C Collection which you considered a little high in proportion to the others. There are, we think, 21 of Witherings own letters in this lot, which, if catalogued separately would fetch, we suppose, about 7/6 each — £ 7-17-6. But of course a collection is always sold at a lower price than its separate items singly, and we are anxious that the present lot shall not seem in any way expensive.

The owner of these papers has lived at Birmingham for very many years, and he rather prizes the Withering letters for local reasons, and also because he could at any time sell them in Birmingham at slightly more to local collectors. But he is anxious to meet us as far as he can, as we have bought many things from him, and he is willing to enable us to reduce the price of C from £ 6 to £ 5 if that would equalise matters. We hope, therefore, that the prices of the other lots, which we think are certainly moderate, and the reduction on C, will make the total seem fair to you. The price, therefore, of the

entire collection would be £13-5-0, which is as near as we
can make it to your suggestion of £12-12-0.

We are enclosing, as
requested, our account.

With best thanks,

Yours faithfully,

Bligh & Co.

Dear Sir.

We thank you for your note and have sent Beddoes and Whyte (on approval) as requested.

We have been in correspondence with regard to the Withering papers & find our correspondents possess a considerable quantity (about 300 separate items) of correspondence and papers relating to Dr. Withering, Mrs. Withering & Captain Withering (the son). These deal with purely family matters & to the young Withering when a boy at school - NOT Dr. Withering's Scientific activities. Our correspondent would sell these, but does not seem very willing to come to reasonable terms. If you think these would interest you please let us know and we will press the matter. We wrote, however, asked him to sort out all the papers relating to Dr. Withering, his scientific work. He is

27/
willing to sell these, & this morning sends us the following particulars of what he can offer: -

- A. Dr. Withering's Diploma, dated 1764, with seal in box, & signed with 34 autographs.
- B. About 50 autograph letters from scientific men to Dr. Withering on matters of scientific interest.
- C. About 25 letters & papers in Dr. Withering's own handwriting - letters to his family & friends etc. Included are a few letters from and to Erasmus Darwin respecting some contemporary libel about "killing a patient."

The price of A. is £3/3/- . B. we propose buying in ^{any} ^{case} ^{any} ^{one} ^{of} ^{the} ^{lot} ^{if} ^{you} ^{wish} ^{to} ^{have} ^{them} ^{on} ^{approval} & take any individual letters at a quite moderate price, or the whole lot at a reduced sum.

The price of C if purchased in 1 lot works out at about 6/- an item. We are a little diffident about this lot, as we have not

Dear Sir.

We thank you for your post-card asking us to report any books or pamphlets by Dr. John Woodward, which we will gladly do when any come in to our hands. The only book of his we have just now is the Third Edition (1723) of the "Natural History of the Earth", of which you already possess the First.

We have had reported to us a copy of Dr. Richard Bright's "Travels in Hungary", 1818, 4to. half calf, with an Autograph Letter inserted, at 16/-. We might, by waiting a little, hear of a cheaper copy, but report this one in case you urgently need it.

We have now in stock the following book by William Weberden, the younger: -

On Education: a Dialogue after the
Manner of Cicero's Philosophical
Disquisitions. 8vo. boards.
London 1818. Price 3/.

Would you like us to report to you

on chance from time to time any books mentioned in "Texts
illustrating the History of Medicine in the Library of the Surgeon-
General's Office"?

It strikes us that this might
be a good standard to take, as we often get quite
inexpensive books, mentioned therein, which, however, we
might not quite like to trouble you with reports of. One
such book has come in to-day, of which we give a
report below.

With thanks,

yours faithfully,

Dear Sir.

We are much obliged for your letter of Nov. 19th & are very glad that we have been able to send you some items of special interest.

We understand that our correspondent also possesses the Diploma of the younger Withering, with we forget quite how many signatures at the foot. I have mentioned it in a letter to us some time ago. Perhaps as you are specially interested in Diplomas you might like us to make inquiries and possibly get it on approval.

We thank you for your order for Gurney's Life of Thomas Young and Wetherham on Sore Throat, which we will send on in the course of the day.

Are you keeping the 4 lots

case taking the Diploma and the personal letters &
would let us know about the other 2 lots of
miscellaneous material. It is about these two
lots that must tell our correspondent in a couple

VIA VALPETROSA, 6.
(FRA V. TORINO E BIBLIOTECA AMBROSIANA)

Sir W^m Osler

Regius Professor of Medicine, Oxford.

Dear Sir,

Formerly, when I was manager of Messrs. Loescher of Rome, I often had the pleasure of doing ^{book} business with you. I have now opened a small second hand business here in Milan, and though I have few medical books, I trust, I shall be able, to make you from time to time some offers.

To day I beg to report a very curious and
evidently unpublished Manuscript with hundreds of

of pen and sepia drawings. It is entitled:

Magnini, Gaspare De linearum nervorumque
prognostico... per metaproschopica artem elaboratus
4^{to}, written in Italian, on paper, end of 16th or
beginning of 17th century, boards.

The price is £12.---

Further I beg to report the following printed volume of historical
notes on the medical writers of Milan:

Corte, B., Notizie istoriche intorno ai medici scrittori
milanesi e ai principali ritrovamenti fatti in medicina
dagli Italiani. Milan 1718, 4^o, boards. £1.---

Both items could be sent on inspection, if desired.

Believe me, Dear Sir,

Yours very faithfully,
Ernest Mayer.
