Dear Bill:

I have just had a note from Dr. LeRoy Crummer of Omaha, Nebraska saying that he and his wife were in Oxford two years ago on one of their book purchasing tours and wanted very much to see the Biblioteca Osleriana but felt somewhat diffident about presenting themselves without an introduction.

You know, of course, that Crummer and his wife have suddenly launched themselves in book collecting and have gotten together an amazing lot of valuable historical works which have put Omaha on the bibliographical map. The Crummers are just sailing for abroad for another tour and have written me to ask whether there would be any possibility of their seeing the library. I have told them of course, and to ask for you, and above all to see the present state of your magnum opus, the catalogue. Tanta Grace I am sure will be glad to welcome them as being admirers of Sir William who are enthusiastic about the biography. I suppose you may expect them in the course of the next month.

Always sincerely yours,

HC

Dear Bill: Enclosed find list of corrections not too late
shape for 2nd printing. Some quite important - eg. the
January mistake & the Card. fibrous one.

A.C. Abbott writes me about every 3 days that I have
been too severe on Peppers. Surely he did not have
a chance to read the M.S. He's forced it at there would
have been nothing left for a difference of opinion - result an
insipid book. Best love to you all
