Dear C

You may like to have the enclosed letter from Lister. We went to London & gave the Kaiser an honorary degree & he asked me particularly about Lister & sent him a message. This is his reply. We have had a very jolly time A - G doing all sorts of kind acts as usual. It is very hard to live up to these Boston women. Did I tell you we are issuing a 2 or 3 Vol edition of all Lister's writings from the Press. 'Tis very hard to get the old man to shell out the Mss. I have just been in town at the meeting of the Path. Soc. of Gt Britain very good men & good papers. I am trying to get on the track of Wren's Anatomical Drawings - Did you know that he was one of the first to do *microscopic* drawings! Wonderful man! Love to all those darlings / & the

Yours.
