(Letter to Dr. Cushing)  
(typewritten)

Feb. 9th, 10.

13, NORHAM GARDENS,  
OXFORD

Dear Cushing,

I am so glad to hear of the St. Louis scheme, which I do hope will go through satisfactorily. You and Kate will of course be desolated at the thought of leaving Baltimore, but think how devoted you will be to St. Louis in a few years! It is a very fine city, and plenty of good fellows there, and it would be a great thing for the profession to have you and Edsall build up a great school in that region.

Did the books ever come? I am afraid you had trouble at New York; it was very stupid of them, as I told them particularly to send direct to Baltimore.

Everything here goes on smoothly. I am all right again, and trying to struggle with my Lunleian lectures for next month at the College of Physicians - anginer pectoris

With love to the children and Kate.

Sincerely yours,

WM OSLER
