Dear Cushing,

Thank you so much for sending the Welche 'rarebits' and the dinner programme. What a delightful company! I am charmed to see that you had Miss Thomas and Miss Garrett. Had it not been for this Chapin calamity I think I should have been there. It must indeed have been a great occasion.

What a quandery you are in! If they could only make the Brigham Hospital what it should be you should not hesitate.

By this time you will have seen Grace, how delighted she will be with the children! We have missed her very much. Revere has been off in Wales fishing, and had some very good sport.

Sincerely yours,

WM OSLER
