(Letter to Dr. Cushing)

*Handwritten*

Oct. 1st, 10.

From the Regius Professor of Medicine, Oxford.

Dear H.C.

You did not give me the right address of that antiquariat book seller in Paris. My letter was returned. Thanks for the ~~Daniels~~ & the Gold room copy which has not yet turned up. I will make application at the next meeting to have the Vesal.RCP. picture photographed.- also the ChCh one. the larger plate & will ask them to arrange it. Couldnt your assistant Dr ? give us a Pituitary ~~refect~~ for the Quarterly Jr! We pay £10-15. Do ask him. You could revise it. We are having a nice quiet time - tho. I am on the road a great deal - in town every day lately. How did you like Balls Vesal.? Good as far as it went - not enough Vesal. but the typography is excellent. To delightful to hear of Margorie & the tow-headed kids - but I am so disappointed about the twins. I am sending Pius tomorrow (when it comes out) Kiplings new book. Love to Kate & those angels.

Yours ever

W.O.
