From the Regius Professor of Medicine, Oxford.

Dear Harvey C.

It is disgusting that you should have missed that Garth thing, but Cock is an old fellow, and you will probably get it later. I am delighted to see that you have been selected to give the surgical address in 1913. We are making great preparations. We shall look for you next summer with the surgical trip. I wish I could come with you! I might possibly be able to join you somewhere about July 1st. Don't you go near Boston until you have got the clinic ready; it would be much better to come over here and have a good rest.

About those Oppenheim portraits - I saw them, but I am afraid he is a fake of the first water. I am sure we shall have from him a whole series of the distinguished masters in medicine. The Willis looked all right, but the whole thing seemed to me very fishy.

Love to Kate and Pius.

Sincerely yours,

W. OSLER
