From the Regius Professor of Medicine, Oxford.

Dr William Osler Jr.

1, February, 1915.

Dear Will,

Thank you so much for the Rush letter. which I will
put in the front of his collected works.

I have got a great many cases of nervous trouble. The
life in the trenches knocks these poor devils out terribly.
Then, the young men have been smoking too many cigarettes.

With kindest regards to your mother and to the family.

Sincerely yours,

Wm. Osler.
