13 NORHAM GARDENS,
OXFORD.

Dear Dr. Kelly

It was good of you to send so generous a subscription to my Belgian Professor Relief Fund and appeal. I should have said thank you before but I have only just had the lists of those who responded. I appreciated it so much. We are well and as you can imagine very anxious about Revere, and all our young friends at the front. Every moment is occupied here with the wounded and war work in various forms. Of course we are anxiously waiting now to know what will happen in America.

My husband joins in affectionate messages

Always sincerely

Grace R. Osler.
