Dear Sir William,

I thought it might interest you to have a pull from the Harington copper plate of Queen Elizabeth which I showed you; the Press have taken a few, and they have also done a very good photograph of the touch piece, but I believe you suggested something about a wax impression of the latter; if you would like to take one in wax, will you let me know, as I shall be going away about the end of next week or earlier, and shall probably return it. The copper plate, I think, has come out rather well, unfortunately it was touched up in the eighteenth century.

Yours very sincerely,

H. F. B. Brett Smith.
