

1884

1028/37/57

CUS417/37.58

on W.S.C. 89

Which appointed in 1884 was the first recognition of pathology
as a university subject and as a branch of science independent
of its relation to medical teaching.

W. S. C. 89

W. S. C. 89

During the year the Mrs School has been employed.

The Anatomical class alone has not yet been in attendance.

Students have been to a number of places and
particular attention to the subject of

Abel in Pharmacology.

Students have only found at one
of the hospitals from this day.
