

CUS417/37.82 1899

Quite probable time began with an American voice at this time
John D. Barrow of Boston had sent a paper on the topic at a meeting of the
Academy of Natural Sciences in Philadelphia

He gave a paper read at the B. N. S. July 1, 1899 p. 39

"
The fact that the American is pronounced, its effect on the voice is approved by a
very high of speech which will never be corrected, because that the
American word is one of their national institutions"
