My dear Old Medicine Man

Your most welcome note arrived
the day after Mother had a brilliant
cure of her rheumatism. The day for her
and needless to say for me. I thank
you so much. It has really given
us the greatest pleasure. The Mother
says "Keep your kind heart", she
has not been at all well, quite
high blood pressure, but that
has gone down. She is now
feeling more like herself, although
she has headaches. Father died
about a week after Christmas &
her daughter Mary brought her back
home. They had gone out to live in
Oregon - Mary is returning to stay

Just as on her way to rail. Her
brother in Belmont & we will gladly
keep the photograph until she comes.
The Johnsons are in England have
been there since the dear dear wedding
Catherine. The "Biography" has not
yet arrived, but will be gone soon
when it does appear, but on the
days to come we are enjoying the
expectation of its appearance

With kindest regards to Mr. Fisk
& love to your son and wife.

Believe me to be
Very sincerely
Yours

Edw. B. Barwick
