HENRY R. VIETS, M. D.  
HOTEL CANTERBURY  
BOSTON, MASS.

23 May 1925—

Dear Dr. Cushing.

That wonderful book! Nothing has ever gripped me so hard. I am nearly as bad as Oster's famous nurse who could "sit up these days and these nights with a case of black smallpox and be just as drunk on the fourth morning, as the day she began". The thing has

made me lose much sleep; not in bed until  
1:30 a.m. The first night it came. It even  
persuaded me into the bath, where I find "the  
phenomenon" works — "I can't explain it!"

Of course, this is all a tribute to  
your splendid work. I can only send my  
congratulations along with, I know, many, many  
others —

Sincerely,

H. R. U.
