My dear Doctor Cushing;-

I was thrilled to read of your new honor, The Pulitzer Prize, first; because the members of Base Hospital 5 love you, and second; because at this moment I am at the Columbia School of Journalism, and chose as one of my assignments in bookreviewing your volumes on Dr. Osler.

What a wealth of observation, research and literary skill you have set down! Indeed you are to be congratulated!

To stand as a genius in one's chosen art is rare; to be master in several is unique. You have accomplished much, but you are far from through.

Very sincerely,

Elizabeth M. Walsh
