Dear Maysie

Have you received The Life  
of Sir William Osler? Minnie came  
a few days ago and last night—  
I read it— for several hours—

It is an amazing piece of work  
and now someone should write  
a biography from it—

Perhaps a documented biography  
with so much extraneous matter—  
tellers from others etc. was necessary  
and Harvey probably knew better.  
Than anyone else. What W.O.  
would have liked—

It is extraordinary how he (H.C.)  
keeps himself out of the book →

Do tell me what you think of it I must  
review it for The Sun. and I shall  
also include it in "The Doctor Looks  
at Biography" which is the title -  
the publishers insist - my next book  
shall carry -

I am much better since my tonsils  
went in the ash heap. I hope within  
6 months to part with the pain &  
difficuly they thrust upon me so long  
you are in winter-slice I suppose  
Here it is but a faint-enchanted  
and I wish you could see the  
rebirth of Spring. I am going  
to Virginia next week for 12 days  
to gadabout and to deliver two  
talks, and on the 20<sup>th</sup> of June  
I go to Aix. but I must leave  
you before I go. Must I go  
to Alcala?

Did you get an extraordinary study of John Brown  
I sent you 10 days ago?

W. H. Love
