Dr. Harvey Cushing,
Peter Bent Brigham Hospital,
721 Huntington Ave.,
Boston 17 Mass.

My dear Harvey:

Will you send me an official letter to be put before the president of the Academy of Medicine in connection with the following?.

We have a copy of the Sargent's portrait given by Sir Edmund Osler to the Academy, the president allowed the McAlinsh publishing company to take down the portrait and photograph it, the president by so doing offended the curator of the portrait and the library committee, who feel that they should have been consulted, hence special meetings to investigate.

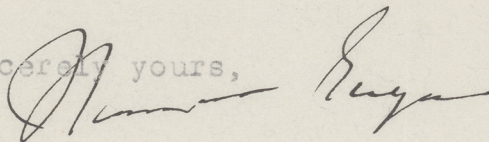

The book company are giving a very nice carbon print of the photograph

with each copy of your biography which they may sell. Much concern on the part of the curator and the library committee lest you should be offended, and if you can tell me that you are not deeply concerned with their action my duties in an unnecessary fuss will be settled. The book sellers thought they were doing a very nice thing and do not stand to make money on the little photograph.

Sincerely yours,
