Dear Dr Cushing: -

Have just finished your life
of Dr Carter. It is a very scholarly book and
I have enjoyed its perusal more than I
can tell you. My own letters from him were
so brief and fragmentary that they seem-
ed hardly worth being passed on to
you. They concerned pamphlets on ether,
Amasa Brigham, Eliza North &c
If you should like to see them some
time shall be glad to show them to
you. Of course I prize them as being

from the "Chief."

On page 592 you speak in volume 1 of the Medical Library and Historical Journal as dying on account of the death of S. J. Huntington. Mr Huntington did not die. He was librarian of the Kings County Medical Society, ~~and~~ ^{and} dabbled in many things and was shiftless in doing things. He never "tied up his bundles" properly. Finally he married a wealthy widow and disappeared from view.

In the note on page 369, volume 1 you speak of Ramsey as a recent Toronto graduate. He graduated from the University of Virginia. There are minor errors but I thought you would like to know of them.

With kindest regards

Most Sincerely

Walter D. Finner
