MARY VAN KLEECK, DIRECTOR

July 13, 1925

Dr. Robert M. Yerkes,
Franklin,
New Hampshire

My dear Dr. Yerkes:

Thanks for your letter of July 10. I shall ask Mr. Glenn if he needs anything more by way of report. I think that he will say that you have been most satisfactory in keeping him fully informed.

I am nearly through the first volume of Cushing's Life of Osler. In thrilling interest it is quite unsurpassed in my experience. What a splendid piece of work Dr. Cushing has done, and how delightful is his power of subordinating himself! This also seems to have been Dr. Osler's power. I had the added interest of reading the first volume while visiting Dr. Frederick E. Gates, who is now in the Rockefeller Institute, and who was a student of Dr. Osler at Johns Hopkins. A photograph of Dr. Osler, taken by Dr. Gates, appears in the second volume, - the delightful one, sitting in the garden.

Cordially yours,

Mary Van Kleeck
