BOSTON

LOUIS P. LA FRANCHE

Wednesday

My dear Cushing—

I always get around to things a little late. But I do want to congratulate you on the recognition of your "Life" which places you as it should in the forefront of authors. It is perfectly amazing how many of the laity are enthusiastically reading the book more I believe than the doctors. I have also read a great deal of it but its weight in pounds prevents me from reading it in bed. It was a great undertaking and you have done it superbly.

I am just about

to go to Yank and I do not
see much of a summer before
me. I thought the Welch
best very fine so much
better than a portrait would
have been. You should have
one —

Sincerely

W. D. Cunningham
