Dr. Harvey Cushing
Walnut Street
Brookline, Mass.

Dear Doctor Cushing:

An enforced rest, due to an injury to my foot, has given me the opportunity to read your wonderful book on Sir William Osler. How you could dig up so much interesting information is a marvel to me.

I wish to add my word of gratitude to you for writing about this wonderful man in such a wonderful manner. You certainly have made a great contribution to the profession and this book will certainly be a guide to all of us who are now living and to those who follow us down through the ages.

Sincerely yours

Arthur A. Cushing
