My dear Dr. Cushing:-

I have just finished reading, for the second time, your Life of our old teacher, Dr. Osler. I find the books just as interesting the second time as I did the first, and I want to congratulate you as I know many of your former pupils have done.

I understand from Dr. Crowe, my old room-mate, that Dr. Welch wrote a criticism for one of the papers or magazines and I am writing you to find out in which magazine this criticism appeared.

With kind personal regards, I am,

Sincerely,

*Dwight Wallace Tracy*
