My dear Hawley

I wrote you a year ago
telling you how very much I was
enjoying your Vol. I of the Life of Osler.
I did not think nearly a year would
pass before I read Volume II. But
I have been awfully busy since then
and only ~~two~~ weeks ago. During our
absence of fifteen days I got out Vol. II,
and I have enjoyed it even more than
Vol. I. Again words fail to express
my admiration of the author.
How can I but find it nice
to write such a monumental work?
The story with which you
have collected, and selected, and
interwoven the threads of his
daily life. from letters and
addresses and books. is uncommon.
The result is a marvelous

living picture of Osler.
that will always remain
a joy to those who were fortunate
enough to know him.

Just as I was getting up from
my supper allid. Dr. Rockefeller
was here and much time I
needed a rest & must come to
Ormond for a while. I have been
here nearly a week, feeling
better each day, with a little
food and much rest. It is
an ideal spot."

I brought my Osler along
and today read your story
or was Dr. Rockefeller's story (Page 257)
about Dr. Rockefeller having

from Shiloh \$10000 in 3 years
and later became a fortune told
from him a million marks. He
decided he did not need the R.

and to show him his gratitude
he sent him 1000 dollars & 606.

Dr. Rockefeller accepted
heartily & said there was not a word

of Truth in the ~~Here~~.
 It was a good one anyway.
 I was rather pleased the Editor
 in his article on Ben. to come
 rightly. but not of my I got & oblige.
 pardon a very handsome
 compliment. & said I had
 more 5 years cases done
 all the rest of the country.
 It is all the same pleasing is
 5 years ago he started out
 absolute ~~Heptimal~~ of the value
 of the Texas. & even now
 he prefers to be in my
 experience result to "workable
 clinical experience & surgeon
 judgment" rather than
 to the method I employ.
 One way of reaching a
 solution. without admitting
 you were wrong.
 Hoping to see you in Detroit
 during your
