Dear Cushing:

Your letter with its
generous appreciation of my review
of the Osher volumes is more
than adequate reward for a
pleasant task. What of myself
I put into the review I think
wise should have written you.
I am glad you like what I
wrote - It seems to me hopelessly
inadequate.

Did you not, kind friend,
command me to forget my
physical ills and "keep my
nose to my proper job"? How
then could I be expected to
keep you informed!

Thanks, I am vastly
improved in general health,

and my sciatica is better
if anything. I do not mind
it since I feel better
otherwise.

Your thorough examina-
tion and advice, topped
by Ober's did me heaps
of good. I occasionally
treat the corset, by
smearing - a little
benzoin of sugar and
sugar producing foods
seem to have helped.

Yours gratefully and
cordially.

Phineas M. Yerkes.
