Dear Dr. Cushing,

Your note of the 8th is just received. From the enclosed clipping you will see that Professor Schäfer delivered four lectures on the Herter Foundation in 1908, the subjects of which are indicated. I do not have the exact dates of these lectures, but they were given in the fall of that year.

I am glad to take this occasion to tell you of the wonderful impression your books on the Life of Dr. Osler have made on all of us. I feel very proud indeed that my name is even mentioned and do not forget to whom thanks are due.

I have just had the pleasure of referring to you as the greatest living authority on "Neuralgia of the Fifth Nerve." The gentlemen seeking the information is Edward L. Bernays, 9 E. 46th St., New York City.

Yours sincerely,

Registrar
